Your **Opinion MATTERS**

Last night I kicked off Fashion Week by attending Coco's fashion show for her line Licious. Coco is the star of E!'s hit show *Ice Loves Coco* and wife of legendary rapper Ice T. The atmosphere was full of energy, celebs and amazing outfits. The Licious collection embodied Coco to a tee. I loved that she used models of all sizes because Coco herself is curvaceous.

She built a career on wearing nothing but an array of eye-watering clothes - or rather, lack of. So it was a rare sight to see Coco Austin covering up her rather buxom body in normal attire.

The blonde bombshell appeared to be taking herself a little more seriously as she stepped out on the arm of husband Ice T at Toronto Film Festival to promote his documentary *Portrait of A Pimp*. Coco was seen wearing fitted black jeans, as well as a high-neck T-shirt emblazoned with 'Love Pink'.
